DETAILED ACTION

Claim Objections

1. Claims 1, 8, 24 and 32 are objected to because of the following informalities: the use of the term "general" to describe the formulae is problematic. Are the formulae general as oppose to specific or does general attach a broader meaning? It is suggested that the Applicant delete "general." Appropriate correction is required.

Allowable Subject Matter/Reasons for Allowance

2. Claims 2-7, 9-23, 25-31 and 32-39 are allowed.
3. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is International Application Nos. WO 03/080241 A1, WO 01/04179 A1, WO 01/34297 A2 and US Pat. Appl. No. 2002/0198099 A1. The patentable limitation of the present invention is L, the complexing agent, which is a monomer that has a least one polymerizable site of carbon-carbon unsaturation.
4. As of the date of this non-final office action, the Examiner has not located or identified any reference that can be

used singularly or in combination with another reference including the cited references to render the present invention anticipated or obvious to one of ordinary skill in the art.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
